

A.P.12924 WEE MEGGER 500V

(Joint-Services Designation: Ohmmeter, Hand Generator .500V)

SUMMARY OF DATA

PURPOSE

Insulation, continuity and resistance testing.

DESCRIPTION

The instrument has a self-contained hand operated D.C. generator applying a pressure of 500V to the circuit under test. The scale is non-linear and the useful range is between 10,000 ohms and 20 megohms. An ever-ready leather case is supplied.

PHYSICAL DATA

Weight (in case) approx. 4 lb.

Dimensions (in case) 6½" x 3½" x 3½".

REMARKS

This instrument is a proprietary item and has not been redesigned for Joint-Service use. It supersedes A.P.5047 Wee Megger, 250V.
